ANSHAN CHINA

ABOUT US

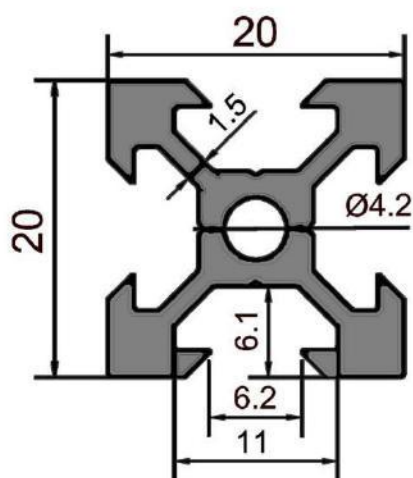

Zhongjda has been serving system integrators, OEMs and other manufacturers throughout the world since 1995. In addition to aluminum extrusion manufacturing, we offer design support and prototyping, aluminum fabrication, CNC machining and tooling, as well as parts assembly, packaging and supply chain solutions. With the best people, processes and machinery, we are able to meet the most demanding industry requirements, while delivering shorter lead-times and consistent quality for even the most complex extruded aluminum shapes.

Whether you need semi-finished aluminum extrusion components, outsourcing of crucial aluminum parts or to launch a total product line, Zhongjda offers the expertise and capabilities to improve your process, product and bottom line. We strive for innovation by continuously embracing new technologies, and we make sure to focus on what's important: quality, safety and ongoing growth. With 20 years of highly competitive quality performance, we continue to be an innovative leader in the production of custom aluminum extrusions and precision machined parts and assemblies.
